Bibliogov, United States, 2013. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.In response to a congressional request, GAO reviewed the crash of a Strategic Air Command (SAC) KC-135A aircraft while it was practicing for an air show to determine: (1) the rationale for the SAC Air Show Program; (2) how well SAC developed and managed the program; and (3) the thoroughness of the Air Force s investigation of the crash. GAO found that: (1) SAC officials believed that the flight crew erred in placing the aircraft in a position from which it could not recover when it encountered turbulence; (2) although SAC did not issue written orders to include the KC-135A aircraft in the program, it verbally approved its inclusion in a later SAC demonstration; (3) SAC oversight of the 92nd Bombardment Wing s (BMW) development of the flight profile was less thorough than for other aircraft; (4) the 92nd BMW established its own flight parameters for the KC-135A, rather than using SAC guidelines; (5) the 92nd BMW did not have a simulation of the integrated B-52H/KC135A profile before the flight; and (6) neither SAC nor the 92nd BMW appear to have followed command and control requirements in developing the integrated profile. GAO also found that: (1) SAC had no air show regulations; (2) although SAC believes that its guidance was adequate, it admits that it did not document the planning, direction, and oversight of the B-52H/KC-135A profile development as thoroughly as it did for the other show aircraft; and (3) the Air Force s accident report was thorough and complete and reflected an objective and accurate investigation.
