NEW APPROACHES FOR ONLINE CONTROL OF URBAN TRAFFIC SIGNAL SYSTEMS

Shaker Verlag Mai 2011, 2011. Buch. Book Condition: Neu. Neuware - Traffic signal control is one of the key factors in urban traffic control. It directly influences the quality of traffic flow. Besides fixed time and vehicle-actuated control, so called Adaptive Traffic Control Systems (ATCS) have been developed in the past. These systems control a set of connected intersections in a network and aim at optimizing traffic signal control in real-time by continuously adapting the signalization at the intersections to...
