Reviews

A whole new eBook with a brand new point of view. It is definitely simplistic but shocks in the 50 percent of the publication. I am just pleased to explain how this is the greatest ebook i have read during my very own daily life and could be he best ebook for possibly.

The heaviest falls occurred on the 12th, 14th, 27th, and 29th. A trace of snow was observed at Camp Point on the 16th. PROF. J. C. HUTCHISON. Prof. J. C. Hutchison, Cooperative Observer at Monmouth, 111. , died May 11, 1916. Prof. Hutchison was for many years an instructor in Monmouth College and served as weather observer from 1884 to 1894. He then moved to Iowa but returned later and served again as Government observer from 1911 until his death. He was 84 years of age, the oldest observer in the State. He prepared the meteorological reports for the Monmouth daily papers and in this work he was unusually interested and attentive. Prof. Hutchison was much loved and respected in his community and the Weather Bureau has lost an efficient and conscientious worker. The departures from normal temperature and precipitation are computed only for such stations as have ten or more years of record, but all complete reports are used in determining section or division means. Reference letters a, b, c, appearing in the table indicate number of days missing: for example, b represents two days. etc. Also on subsequent dates. it Post-office address, Marengo.
