The power to control the driving force of the universe has finally come to light. At the university on Maladaan, Taren has studied everything from genetics and cell communication to quantum physics, astrophysics and ESP. She believes there is an ocean of microscopic vibrations connecting everything in the universe to every other universe an inter-dimensional field theory. Unbeknownst to Taren, her research and hidden psychic talents are the reason she is called on by the prestigious AMIE space project to investigate an ocean planet and its strange light phenomena. However, there are conflicting agendas within the organisation and she is the only one who begins to suspect that foul play might be afoot.
